MuniFin

Our business and financials

MuniFin

MuniFin in brief

MuniFin is the leading provider of financial services to Finland's municipal sector, wellbeing services counties sector and affordable social housing

- Bloomberg ticker: **KUNTA**
- Funding guaranteed by the Municipal Guarantee Board (MGB)
- Credit ratings are in line with those of the Finnish sovereign
- Credit institution supervised by the ECB
- Credit institution of systemic importance to the Finnish financial system (O-SII)

Rating agency	Long-term funding	Outlook
Moody's Investors Service	Aa1	Stable
Standard & Poor's	AA+	Negative

The Municipal Guarantee Board, which guarantees MuniFin's funding, also has the corresponding ratings. Read more about our credit and ESG ratings here: <https://www.kuntarahoitus.fi/en/for-investors/credit-and-esg-ratings>

100% Finnish public sector-owned credit institution

- Finland's municipal sector and wellbeing services counties
- Keva, a public sector pension fund
- State of Finland

Sustainability is a core value at MuniFin

MuniFin's sustainable finance products are driving the implementation of our sustainability agenda.

50%

of all long-term financing is sustainable* by 2035

Updated emission reduction goals for 2035 serve as the foundation of our transition plan.

These goals cover
over 80% of our
long-term customer
financing.

50%

reduction in emission intensity of
municipal financing

>70%

reduction in emission intensity for
buildings**

*Green, social or sustainability-linked
**Aligned with Paris agreement

Who we finance

MuniFin is the leading provider of financing for the Finnish public sector. We have three customer sectors.

Municipality sector

- Responsible for providing many statutory services to their residents.
- Municipalities can provide these services also through corporate entities under municipal control or through joint municipal authorities.

Wellbeing services counties sector

- Self-governing regions that have been responsible for organizing healthcare, social welfare and rescue services in Finland since the beginning of 2023.
- The Finnish wellbeing services counties sector also includes joint county authorities for wellbeing services as well as corporate entities owned by the counties.

Affordable social housing sector

- Affordable social housing is mainly provided by municipality owned companies and nationwide non-profit organisations.
- Affordable social housing can be financed in two ways. The first is through interest subsidy loans. The state of Finland guarantees these loans and pays their interest subsidies. The second is through loans municipally owned companies take out from MuniFin for affordable social housing. These loans do not have a state interest subsidy, but they come with a 100% municipal guarantee.

We provide our customers the following financing services and products:

- Loans
- Property leases
- Commercial papers
- Green and social finance
- Analysis and reporting solutions
- Digital services for portfolio management and financial planning

AA+

Average rating

3.4

Average maturity
in years

Guided by MuniFin's Sustainable Investment Framework

- Investment/Issuer selection, exclusion and controversy monitoring
- Applying issuer-level ESG management to the portfolio management process covering the entire portfolio
 - **ESG score of all security investments held over that of benchmark index**
- Separate thematic investment portfolio within the security investments portfolio
 - **Target is to achieve a 30% allocation in sustainable investments by 2035**

Size of sustainable investments

1.72

EUR, billion

The Finnish public sector structure and MuniFin's guarantee

MuniFin

The Finnish public sector has a three-tier structure

Central Government

Comprises the ministries and the national agencies operating in their administrative branches

Services provided:

- Police
- Defence
- Highways
- Universities
- Judicial system
- Statistics and research

Wellbeing services counties

Currently 21 wellbeing services counties* and additionally joint county authorities for wellbeing services and corporate entities under their control

Services provided:

- Health and social
- Fire and rescue services

Municipalities

Currently 308 municipalities** and additionally joint municipal authorities and corporate entities under their control

Services provided:

- Education and day care services
- Cultural, youth and library services
- Urban planning and land use & environmental services
- Water and energy supply & waste management

*In addition Helsinki will organise its own health, social, fire and rescue services

**292 mainland municipalities

MuniFin's clients include wellbeing services counties and municipalities, however not the central government

Sources: Finnish government, State treasury, Association of Finnish Local and Regional Authorities, Centre for State-Subsidised Housing Construction

Finnish municipalities: Strong revenue base and close link to Central Government

1

By law, a Finnish municipality cannot be declared bankrupt

- Bankruptcy Act (120/2004)

2

Close link to the central government

- Highly independent and have a parallel status with the Central government confirmed in the constitution dating from 1917

3

Strong revenue base

- Municipalities have an unlimited right to levy taxes on their inhabitants (municipal tax rate)
- Other revenues taxation related charges from service production

4

Budget Control

- Ministry of Finance is responsible for monitoring the municipal sector
- By law municipalities have an obligation to balance their finances over a four-year time frame

Revenues (ca. EUR 26 billion)

Expenditures (ca. EUR 26 billion)

Municipal Guarantee Board (MGB) provides the guarantee for MuniFin's funding

Stable

- Aa1 (Stable) / AA+ (Negative) rated
- MGB was established by an act passed by Finland's parliament in 1996 for the purposes of safeguarding and developing the joint funding of municipalities

Strong

- All Finnish mainland municipalities* are members, representing 100% of the taxation power in mainland Finland. Membership is permanent
- Members of the MGB are jointly liable in proportion to their population figures for the guarantee provided by MGB for MuniFin's funding

Immediately enforceable

- MGB can collect from members without a court order
- All debt guaranteed by MGB is BIS 0% risk-weighted in the EU area

*Due to the autonomy of the Province of Åland, its municipalities are not members of MGB and are not clients of MuniFin.
More information about the Municipal Guarantee Board (MGB): kuntientakauskuskeskus.fi/en/joint-funding-system-of-municipalities/

Economic outlook of Finland

- Recent data provide further evidence of a cyclical turnaround, with Finland's GDP growth surprising on the upside in the first half of 2026 as exports, investments and private consumption all contributed to stronger-than-expected economic activity.
- The growth outlook is supported by the upturn in investments and the strengthening of industrial order books.
- Geopolitical tensions continue to make the global economic environment vulnerable, and growth prospects may still face setbacks.
- Finland's debt/GDP has risen in recent years due to costs caused by the pandemic, increased defense spending, and slow economic growth.

The Finnish Economy

Know-how intensive production base

- Services account for ca. 70% of GDP

Trade oriented open economy - export-to-GDP ca. 44%

- Finland's main export counterparties are within the Euro area, both in goods and services
- Exports largely made up of investment goods and intermediate products
- The main export categories being services, other goods and machinery, electronics and equipment
- The uncertainty related to tariffs caused changes to the normal rhythm of exports in Finland, but overall exports has risen since the end of 2024

Appendices

MuniFin

Our operations rely on low risk appetite

MuniFin's risk pillars

Objectives and related measures

Profitability & Capital

A sufficient level of earnings, profitability and capital

Liquidity & Funding risks

An adequate liquidity buffer and a sustainable funding position and profile

- Well diversified short- and long-term funding sources
- Well-balanced, low risk liquidity portfolio with a high ratio of HQLA
- Sufficient liquidity to cover continued undisturbed operations without new long-term funding for at least 12 months. Liquidity metrics, LCR and NSFR, to be kept well above regulatory requirements
- Secondary source of funding: Monetary policy counterparty of the Bank of Finland

Credit risks

Sound credit risk profile appropriate for MuniFin's business model

- All customer financing is direct municipal or wellbeing services counties risk or is guaranteed by a municipality, a wellbeing services county, a joint municipal authority, a joint county authority for wellbeing services or central government (deficiency guarantee)
- All customer financing carries a 0% risk weighting in capital adequacy calculations
- Liquidity portfolio rating target AA+ (single issuer minimum rating requirement A-)
- Derivative counterparty minimum rating requirement A- (with minor exceptions)
- 0/0 threshold two-way CSAs with daily collateral management

Market risks

Sound market risk profile appropriate for MuniFin's business model

- Funding and liquidity portfolio investments are as a norm back-to-back hedged to floating rate EUR
- Customer financing is all in EUR and as a norm hedged to floating rate

Operational risks

Effective operational control and compliance to support functional and responsible operations

- Objective is to minimize operational risks related to business and operations by carefully identifying and analyzing the impact and probability of the risks

MuniFin's credit assessment and credit granting process

Annual credit assessment

- MuniFin conducts an annual assessment of the ability of its customers to meet their future obligations.
- The assessment covers both economic and qualitative factors, including indicators of solvency, debt-servicing capacity, profitability and ESG. For municipality customers, the municipal evaluation criteria of the Ministry of Finance is taken into account.
- As a result of the annual assessment, MuniFin will have a view of a customer's current risk position.

Credit granting process

- MuniFin's credit granting process is carried out by the account manager, who will estimate whether a customer and a financing request will fulfill requirements of the Act on the Municipal Guarantee Board and MuniFin's credit risk strategy.
- As a part of the credit granting process MuniFin will conduct a credit analysis covering both financial and qualitative factors of the borrower. Factors include for example current, historical and future repayment capacity, purpose of the credit, borrower's funding structure, borrower's position within the sector, the outlook of borrower's industry and risks posed by macro-economic development and ESG.
 - The final risk assessment and scoring of a customer is the weighted sum of financial and qualitative factors

Decision making

- The results of both the annual credit assessment and the credit granting process indicate the risk profile of a customer and will influence the final credit decision.

Municipality Finance – Legal structure

MuniFin Euro-Commercial Paper (ECP) programme

- ECP issuance is MuniFin's primary tool for adjusting total liquidity in the short-term horizon. Total outstandings vary based on liquidity needs.
- MuniFin issues ECPs actively through its dealer banks and ECP levels are updated daily to match liquidity needs.
- The size of the programme (under English law) is EUR 10 billion.
- STEP-compliant since 2020.
- Outstandings at the end of 2024: EUR 4.1 billion.
- Main currencies: EUR, GBP and USD.
 - Also available: AUD, CAD, CHF, NZD, SEK.
- Dealers: Barclays, BofA securities, Bred, CA-CIB, Citigroup, Rabobank and UBS.

Social bond eligible project categories

MuniFin lending category	Eligibility criteria	UN Sustainable Development Goals
 Housing for special groups and assisted living	Financing provided towards construction or renovation of housing for special groups and assisted living for special groups, including: • Assisted living buildings which may include health centre services • Care, service and nursing homes • Student housing • Youth accommodation including youth homes, children's homes, substitute care and child welfare institutional care	 
 Healthcare	Financing provided towards construction or renovation of public healthcare facilities as well as the acquisition of medical equipment, all supported by public spending. This includes: • Public hospitals including primary health care, specialised medical care and/or associated services • Public health centres including primary health care, specialised medical care and/or oral health care • Medical equipment needed to operate primary health care, specialized medical care, oral health care and/or associated services	  
 Wellbeing and culture	Financing provided towards construction or renovation of public wellbeing and culture facilities, all supported by public spending. This includes: • Sports facilities including sport centres, swimming halls, football fields and ice rinks built and/or maintained publicly • Culture facilities including libraries, culture centres, museums, theatres and multipurpose venues built and/or maintained publicly • Open spaces including parks and fields.	  
 Education	Financing provided towards construction or renovation of public education facilities as well as the acquisition of equipment, all supported by public spending. This includes: • Public day care centres • Public schools including primary and lower secondary schools, upper secondary schools and schools for vocational education and training • Public schools for vocational higher education and training (universities of applied sciences) including campuses and education centres • Teaching equipment and non-teaching equipment needed to successfully operate day care centres, public schools or higher education	 

The Sustainable Finance Team (SFT) approves projects

- MuniFin's customer submits an application for finance
- The account manager handles the general finance application process, and in parallel the SFT collects information and supporting documentation from the customer to evaluate the eligibility for green or social finance, as well as the project's environmental and social impacts
- A member of the SFT prepares a project presentation, which is supported with relevant documentation
- The process applies the four-eyes principle, which requires another member of the SFT to assess the project presentation and determine the approval of the project and its status as an eligible green or social finance project
- After approval, green or social finance is granted to the customer, and the approved project is added to MuniFin's green or social project portfolio
- An annual external review is conducted to assess compliance with MuniFin's Green Bond Framework and to assess the allocation of green bond proceeds (post-issuance review)
- MuniFin gives a margin discount of 0–15 basis points to approved green finance projects. The discount is based on the project's characteristics, which are assessed and scored. Social finance projects receive a 2 basis point margin discount.

The Sustainable Finance Team consists of selected sustainability experts from the Customer Solutions division and the Capital Markets and Sustainability division at MuniFin.

“Big congratulations to the MuniFin team for a fantastic 7-year EUR benchmark! MuniFin timed its first EUR benchmark of the year brilliantly resulting in a record order book exceeding EUR 9.5bn in a relatively calm new issue window. The final pricing inside secondaries and at record tight spread to government is a testament to MuniFin’s credit, funding strategy and investor work over the years. Nordea is privileged to have been involved in this record breaking transaction.”

Marcus Viitamäki, Head of SSA DCM, Nordea

| EUR 1 billion | Long 7y | 2.750% | J.P. Morgan, Natix, Nordea, UBS |

“The combination of a record-breaking order book and being able to price four basis points tighter than initial guidance with the tightest spread ever achieved versus the Finnish sovereign, is truly a remarkable achievement for us. We are grateful to all investors and dealer banks who participated in this landmark deal.”

Antti Kontio

**Head of Funding
and Sustainability**

MuniFin's first benchmark of 2026 was met with exceptional investor interest. The EUR 1 billion, 7-year bond was nearly ten times oversubscribed and was priced at a record-tight spread versus the Finnish sovereign.

Only a few days after the release of MuniFin's Financial Statements Bulletin for 2025, MuniFin announced the mandate for the EUR 1 billion benchmark on Monday, 16 February.

MuniFin was able to find a favourable market window with no other SSA issuers active in the market. The benchmark was met with strong investor interest from the outset, and the spread was updated twice. The final spread at MS+21bps, 4bps tighter from IPT's. Books eventually closed in excess of EUR 9.5 billion (including EUR 300 million JLM).

The order book was the largest ever for MuniFin, as well as for any Nordic agency issuer.

The transaction attracted a high-quality and geographically diversified investor base, with more than 150 investors participating.
